

Discuss Defense Budget

SAN CLEMENTE, Calif. (AP) — President Nixon gathered top advisers at the Western White House today for preliminary discussions on the next defense budget.

On hand to plan the Pentagon spending blueprint which Nixon will send Congress in January were George P. Shultz, director of the office of management and budget; Deputy Director Casper Weinberger; John D. Ehrlichman, executive director of the new domestic council; and Henry A. Kissinger, presidential foreign policy advisor.

Absent was Secretary of Defense Melvin R. Laird, who hurried back to Washington after a Monday conference with Nixon on Pentagon reorganization proposals.

The White House said Cabinet officers were not participating in the early stages of presidential budget-making conferences and that none would be present Wednesday when Nixon holds a similar session involving domestic programs.

During his brief stay here, Laird told newsmen the annual cost of fighting the Vietnam war has been cut in half, from \$29 billion to about \$14.5 billion, since Nixon took office. He did

Drug Trial Guilty Plea By Sisemore

Joseph "Skip" Sisemore, Route 3, pleaded guilty Monday in Cooper County Circuit Court to charges of possession, transportation and sale of LSD.

Sisemore's trial was scheduled to begin Tuesday, but he appeared Monday to enter his plea at the docket setting. Sentencing has been set for Aug. 24.

Sisemore was arrested April 30, 1969, by members of the Pettis County Sheriff's Department for selling LSD in Sedalia.

At that time Sheriff Emmett Fairfax said Sisemore's arrest had been the result of months of work by his department and federal undercover agents.

A change of venue granted by the Pettis County Circuit Court resulted in the move to Cooper County.

Sisemore's sentence could range from two to 10 years in the state penitentiary; one year in the county jail or a \$1,000 fine, or both a fine and prison term.

House Decides To Unveil Some Voting Procedures

WASHINGTON (AP) — The House has agreed to lift the veil of secrecy surrounding some of its most important votes, ending a tradition that has endured since 1789.

By voice vote, with only a few scattered no's, the House wrote into a legislative reorganization bill Monday a provision for recorded votes on amendments.

Votes on amendments now are taken under a teller system — borrowed from the British Parliament when Congress first convened in 1789. This system results in a vote total—but no indication of how individual members voted.

There is a procedure by which one-fifth of the members can force a later roll call on adopted amendments, but not on amendments which were defeated.

The action, coming in the third week of debate on the bill, is the farthest-reaching of several anticsecrecy moves. Earlier, the House opened committee meetings to television and radio coverage, required that votes taken in closed committee meetings be made public and banned the use of proxies in committee votes.

Rep. Thomas P. O'Neill, D-Mass., a sponsor of the voting change, noted that votes on such

key issues as Cambodia and Vietnam policies, the supersonic transport, the multi-warhead MIRV and the antiballistic missile defense system had gone unrecorded.

"We bind the people of America," he said. "We say whether they will go to war. We levy taxes—and yet we are not willing to tell the people at home how we vote."

Rep. Hale Boggs, D-La., the Democratic whip, said he is concerned that "young people say this House has ceased to be relevant."

"We are saying: 'Let a man stand up and be counted . . .,'" he continued. "If you didn't want to be counted, why did you come here in the first place?"

The amendment allows as few as 20 members to demand that names of congressmen and how they vote be recorded by clerks—or possibly by electronic devices.

After the vote on the amendment, members pushed for a commitment to extend electronic voting to regular roll calls in the House.

By voice vote the House agreed to permit—but not to require—electronic voting.

Rep. Joe D. Waggoner Jr., D-La., chairman of a special subcommittee which has been studying the subject for months, assured the House recommendations will be made before the end of the session.

Rep. Ken Hechler, D-W.Va., remarked that 37 of the 50 states now have some form of electronic or mechanical legislative voting, and said Congress should do no less.

Appears at Hearing

The Army completed a hearing today to determine whether Capt. Ernest Medina will be tried in the My Lai massacre. It may be several weeks before a decision is given. Meanwhile,

the Army announced that further hearings against seven officers—including Maj. Gen. Samuel W. Koster—will be held in connection with the alleged incident. (UPI)

Massive Scherff Theft Recovered in St. Louis

The major case squad of the St. Louis police department Monday night recovered what they said was "about 99 per cent" of the shoes stolen last Saturday, along with a truck, from the Scherff Truck Lines terminal here.

Police Chief William Miller said that Sgt. Henry Llewellyn of the St. Louis police department had furnished the information.

According to Miller, Llewellyn reported that three Negro suspects from St. Louis had been taken into custody.

Arrested were Edward R. Watson, 20; Lewis McLemore, 39; and Charles Whitney, 24.

Watson and McLemore were booked on suspicion of buying and receiving stolen property and theft from an interstate shipment. Whitney was booked on suspicion of buying and receiving stolen property.

Miller said St. Louis authorities found the shoes scattered throughout two houses occupied by the men who were taken into custody.

The truck was recovered Sunday. It was parked along a highway outside Collinsville, Ill.

A representative of Town & Country Shoes, Inc., which manufactured the shoes, told police Tuesday the stolen items had an approximate value of \$160,000.

After bills of lading were totaled, Miller said, police determined that 388 cases of shoes and ladies' purses were on the truck when it was stolen.

Monday, Miller stated the incident "was probably the largest single theft in Sedalia to my knowledge."

It had not been determined Tuesday why the three men involved in the theft had come to Sedalia.

Following their recovery, the stolen shoes were reloaded on their original carrier for shipment to various destinations, Miller said.

WEATHER

Fair to partly cloudy warm and humid through Wednesday with a chance of afternoon or evening thundershowers; high Wednesday 90-96; low tonight under 60s favored areas to mid 70s metropolitan areas; precipitation probability 40 per cent tonight, 30 per cent Wednesday.

The temperature Tuesday was 71 at 7 a.m. and 86 at noon. Low Monday night was 71.

Lake of the Ozark Stage: 58.0; 2.0 feet below full reservoir.

Sunset Tuesday will be at 8:28 p.m.; sunrise Wednesday at 6:11 a.m.

SFCC Requests Ruling For Suit

Based on a decision by the Missouri Supreme Court, State Fair Community College moved Monday to have Pettis County Circuit Court rule favorably on the college's suit to declare null and void a petition seeking to dissolve the junior college district.

In the related suit, the Missouri Supreme Court ruled last week that the Metropolitan Junior College district of Kansas City was not subject to dissolution under state statute 162.451. Petitioners had sought to put the junior college question on the ballot where they believed a two-thirds majority would be able to dissolve the district under provisions of the statute in question.

A petition presented Feb. 28, 1968, to the SFCC board of trustees and signed by 2,155 people, called for an election on

American Bombers Pound Laos Border

SAIGON (AP) — U.S. B52s streaked along both sides of the Laotian border with South Vietnam again today, dropping more than 1,800 tons of bombs in some of the heaviest raids of the Vietnam war.

With about 60 of the giant Stratofortresses flying, two-thirds of the strikes hit along a 200-mile stretch of the Ho Chi Minh trail down through the Laotian panhandle to the Cambodian border.

Other flights of the big bombers hit enemy positions on the Vietnamese side of the border, from within two miles of the demilitarized zone to southwest of Da Nang.

The raids were part of a month-long aerial campaign on both sides of the border to slow enemy arms and ammunition moving into South Vietnam's northern provinces and into Cambodia. The targets included enemy activity, bunkers, base camps, weapons positions, and storage and staging areas.

The U.S. Command noted a "slight increase" in ground activity in the northern provinces of South Vietnam, including one attack southwest of Da Nang Sunday in which four men of an American reconnaissance patrol were killed and eight wounded.

South Vietnamese headquarters reported that North Vietnamese troops attacked the Gio Linh military headquarters and a refugee camp five miles south of the demilitarized zone killing one militiaman and nine civilians at the refugee camp. Five enemy were known dead, a spokesman said.

In Cambodia, North Vietnamese and Viet Cong troops smashed through government positions on the Kiri Rom plateau Monday and drove half the defenders off, military officials said. Officers said no new fighting was reported today.

The sources said only two battalions of Cambodian troops—perhaps 700 soldiers—still held positions on Kiri Rom, a 2,000-foot mountain resort 60 miles southwest of Phnom Penh, while the other two battalions were trying to regroup half way down. Three other government battalions suffered heavy casualties earlier in the 18-day battle for Kiri Rom, Cambodia's bloodiest battlefield.

Elsewhere in Cambodia, North Vietnamese and Viet Cong forces opened up with machine guns and rocket grenades on a South Vietnamese transport ship carrying about 600 Vietnamese civilians from Phnom Penh to Vietnam. A spokesman in Saigon said four South Vietnamese sailors and 20 of the refugees were wounded in the attack on the Mekong River

25 miles southeast of the Cambodian capital.

A military spokesman in Phnom Penh reported that a force of about 1,000 Viet Cong overran a Cambodian battalion guarding the country's largest cement factory, near the port of Kampot. It was the second enemy capture of the plant.

The spokesman also reported harassing mortar attacks at a number of points in the country.

Communist Capture

The Cambodian town of Chahkrey Ting has been reported captured by Communist troops. The town has Cambodia's only cement factory. Government troops retreated to Kampot. (UPI)

ASCS Fighting Long Dry Spell

The Pettis County Agricultural Stabilization and Conservation Service was to have called a disaster committee meeting for this afternoon to discuss aid for area farms stricken by drought.

Dick Belton, ASCS executive director, explained that the committee will attempt to release land, diverted from use for long terms as a conservation measure, for grazing and taking hay.

Last week the ASCS released short-term diverted land as a stop-gap measure so farmers can feed their livestock.

"The area has been drastically affected. Pastures are burned out and all the crops have suffered from the drought conditions," Belton said.

Conditions are so bad, some farmers are harvesting unripe corn for use as feed, according to Lloyd Lewellen, county agricultural extension agent.

Belton said the way would be left open for requesting state and federal aid if the drought continues much longer.

One farmer, Hiram W. Shepp, Jr., has begun irrigating nearly 100 acres of his land in Green Ridge to combat the drought.

"Unless rain comes soon, the early corn will only make about half a crop, and crops planted later haven't come up at all," Lewellen said.

Lewellen said he was fearful crop production wouldn't fare much better than last year, when Pettis County ranked below the state average. In 1969 the county produced 57 bushels of corn per acre. The average across the state was 70 bushels.

No let-up in the arid conditions is predicted for this week. According to the U.S. Weather Bureau, temperatures will continue in the 90's with only a slight chance of showers in the evenings.

Picking Flowers Can Be Maddening

LONGMONT, Colo. (AP) — Police officer Arden Smith answered the complaint that a young woman was using obscene language while picking flowers.

But he didn't make an arrest. He said the accused seemed "too young to comprehend the problem at hand." She was 3 years old.

Pollution Bill Has Punch

LANSING, Mich. (AP) — Gov. William Milliken has signed a law that permits anyone to file suit to protect the air, water and other natural resources. Not even the state is immune from court action.

In signing the bill Monday, Milliken said Michigan is the only state to have such a law. He urged other governors to support such legislation in their states. A similar measure also has been introduced in Congress.

Under the new law's sweeping provisions, effective Oct. 1, a citizen could ask the courts to shut down a company for contaminating a waterway, challenge regulations of state agencies as too lenient toward industry, or sue a neighbor for fouling the air with a trash burner.

Circuit courts, in addition to having the power to grant injunctions and impose conditions to stop pollution, may even direct governmental units to upgrade standards it finds deficient.

Until now, court antipollution actions could be filed only by those suffering a personal loss.

The Michigan Chamber of Commerce opposed the new law, arguing that it was best to leave jurisdiction over pollution in the hands of agencies trained for the work.

The bill provides that a judge may require \$500 surety bond to be posted by the accuser, the aim being to discourage a flood of frivolous suits.

Urges New Style

Sen. Abraham A. Ribicoff, D-Conn., in remarks opening hearings on proposals to create two new superagencies to combat pollution, told Americans today they will have to accept "major changes in national life" if they are serious about wanting a cleaner, better environment. (UPI)

NEWS IN BRIEF

NEW YORK (AP) — The stock market, in the absence of any significant news development, edged lazily into minus territory in quiet trading.

FORT SMITH, N. W. T. (AP) — The whooping crane, whose nesting grounds were menaced for the past week by fires, now appears to be out of danger.

WASHINGTON (AP) — If federal officials are using police tactics to enforce school desegregation in the South "they are acting out of character and beyond their authority," Attorney General John N. Mitchell said today.

WASHINGTON (AP) — Government investigators have found that some nursing homes in California were getting Medicaid money for patients who were dead.

Hot Line

Hot line answers questions, looks into complaints, solves problems and generally serves readers and protects their interests. Write Hot Line, The Sedalia Democrat-Capital, Seventh and Massachusetts, Sedalia, Mo., 65301, or call 826-1000 between 7 a.m. and 11 p.m. Hot Line will appear as often as necessary to serve our readers.

All calls and letters to Hot Line must include name, address and phone number of inquirers. Names will not be used but are needed should additional information be required to answer questions.

Q — Recently an emergency situation arose in Smithton when it was necessary for a citizen to get through, but the road was blocked for no apparent reason by a law officer. Is it legal for an officer to block traffic for his own social convenience? — C.P.

A — Sheriff Emmett Fairfax said a law officer may block off traffic only in the line of duty.

Q — What can be done about a manhole that has been dug out and is a hazard to traffic on West Second? — W.W.

A — Arthur Bethke, director of the sewer and sanitation department, reported that concrete was poured and the hole repaired just last week.

Q — I've called police twice about several dogs that run loose and are a hazard in our neighborhood, but nothing has been done. Can you help me? — Mrs. B.A.

A — Police Chief William Miller told Hot Line that the police always alert the poundmaster on calls about loose dogs, but often the dogs are gone or back in their yards by the time the poundmaster arrives. The department is disposing of 100 dogs per month, and it is only a matter of time before the dogs in your neighborhood are caught, Miller explained.

Preliminary Census Results

ST. LOUIS (AP) — Preliminary 1970 census results for Missouri, its counties and major cities. The census bureau says preliminary figures are based on tabulations made in a temporary field office and are subject to later processing and possible revision.

Preliminary figures give the state population as 4,687,759, an increase of 367,946, or 8.5 percent, since 1960.

County	1970	1960

Rock Festival Crowd Exceeds Expectations

KANSAS CITY (AP) — Police estimated a peaceful, rollicking crowd of 17,000 turned out Monday night for a free rock concert put on by the city parks and recreation department.

The only problem, police said, was a lack of parking space. They made no arrests, but handed out 25 parking tickets.

The concert was held at Loose Park, near Kansas City's plush Country Club Plaza. Sponsors were surprised at the turnout.

"This is just fantastic," said Stan Plesser, owner of the Vanguard, a mod downtown coffee house. The Vanguard and radio station KUDL co-sponsored the event with the city.

"We had expected about 4,000 to 5,000 persons," Plesser said. "I'm afraid we kind of underestimated."

Policemen In Battle With Fans

CHICAGO (AP) — More than 2,000 young people battled police with rocks, bottles and baseball bats in anger at the interruption of a free rock music concert sponsored by the city to "bridge the generation gap."

Mobs overturned automobiles, set them ablaze and later streamed out of Grant Park into the downtown district, smashing windows and looting.

Three youths were shot and 63 other persons were injured, including 24 policemen. One policeman was stabbed and another beaten seriously.

There were 148 arrests.

Outnumbered police and the rampaging youths battled back and forth over an athletic field for more than three hours in 90-degree late afternoon heat.

Tear gas failed to disperse the crowd. One group of youths tried to calm others, but to no avail. One squad car was overturned and two other cars burned. One of those on fire exploded, filling the air with black smoke. Rioters also set trash fires. Cars passing along Lake Shore and Balboa drives were pelted with rocks.

After a police helicopter swooped low to broadcast the state riot act by loudspeaker, the police line made a final charge and mobs of youths retreated into the downtown area, pulling down street lights in Grant Park as they went.

Dozens of large display windows were shattered as the youths rampaged down State Street. Several displays were looted.

The violence ended after about six hours.

Both blacks and white youths, including girls in their early teens, took part in the fray at the scene of bloody clashes between police and demonstrators the week of the 1968 Democratic National Convention.

Witnesses said the trouble began when a group of youths took over the stage of the Grant Park Bandshell while an audience of 50,000 waited for the appearance of the rock band, Sly and the Family Stone. The band had refused to appear until the crowd quieted down.

When authorities tried to eject the intruders, others in the audience pelted the stage with stones and bottles.

Groups of youths hurled missiles at each other and a policeman was struck. Authorities then ordered the concert canceled and the youths swarmed onto the athletic field.

Charges Dropped

KANSAS CITY (AP) — First degree murder charges were dropped Monday against two men being held in the ambush slaying of Missouri state Rep. Leon Jordan, Negro Democratic leader. The Jackson County prosecutor, Joseph Teasdale, said the story of the state's star witness, a 14-year-old boy, fell apart under further questioning.

Released from custody were Reginald M. Watson, 19, and Carlton Edward Miller, 36, both Negroes.

They were arrested two days after an assassin blasted Jordan with two bursts of shotgun fire as he walked to his car from the tavern he operated in the early morning of July 15.

Mrs. Jordan filed to replace

K. C. K. Hotel Is Purchased At Auction

KANSAS CITY, Kan. (AP) — The Wyandotte Hotel Co. Inc., the only bidder, bought the Town House Hotel at public auction Monday for \$1,000,500.

A U. S. District Court ordered the sale to satisfy a first mortgage of \$543,349 held by Equitable Life Insurance Co. of Des Moines, plus interest, and for back taxes and interest on a second mortgage of \$297,500 held by Wyandotte Hotel Co.

The 14-story, 250-room hotel was built in 1951 by Wyandotte Hotel Co. as sort of a public project with widespread local support. It flourished for a decade, then began running into financial trouble. The court ordered it closed and padlocked June 22.

John W. Breidenthal, board member of the Wyandotte Hotel Co., said the firm would try to sell the Town House to a concern that will operate it as a hotel.

Romney Says Integration Will Not Be 'Pressured'

WARREN, Mich. (AP) — On a sudden trip to his home state, George Romney, secretary of housing and urban development, has assured 40 suburban mayors that his department has no plans to force racial integration on their cities.

The former Michigan governor said Monday, "Nobody should be pressured to go anywhere" although "it is the essence of a free society that every family should have a choice."

Romney called the special meeting of the mayors to answer copyright stories printed in the Detroit News which said HUD had singled out the suburb of Warren—with more than 100,000 residents—as a target for integration.

The story said the department planned to "use its vast power to force integration of America's white suburbs."

Romney said the stories were incorrect.

Romney's wife, Lenore, faces a primary race Aug. 4 against State Sen. Robert Huber, R-Troy, for the Republican nomination for U.S. senator. The victor will run against Sen. Philip A. Hart, D-Mich., in the general election in November.

Romney said Monday, "HUD will not set numerical quotas for the suburbs."

"We are opposed to the creation, either in the cities or the suburbs, of new concentrations of housing for minorities or low-income families," he declared.

He said HUD "will encourage dispersal, in cities and suburbs alike, of housing of good quality available to families of all races and income levels."

Romney said the "department does encourage integration

through voluntary action, and we have a statutory mandate to enforce a national policy of fair housing."

"But our role is not to prescribe quotas or numerical standards which a community must meet," he said.

"There is not now and will not be any HUD policy mandating forced racial integration in suburbs."

About 250 persons, including members of an ultra-rightist group called Statecraft, booed Romney during a demonstration outside Warren Fitzgerald High School, where the secretary spoke.

In his speech, Romney conceded the existence of a HUD memo which the News quoted in its series, but said the memo "has no relationship to departmental pol-

Water Resource Projects Plan New Marriage

WASHINGTON (AP) — Two of the country's largest organizations concerned with water projects and water resources are planning to join forces.

Heads of the National Rivers and Harbors Congress and of the Mississippi Valley Association were to sign an intent to merge today.

Dale Miller is president of the congress and F.A. Mechling of the Mississippi Valley Association, which recently changed its name to Water Resources Associated.

Miller said merger of the two groups into a new National Water Resources Association was suggested some time ago, since both are interested in furthering utilization of the country's water resources.

"It was felt we might have a stronger voice if we merged," Miller said.

Women Astronauts Are a Possibility

CAPE KENNEDY, Fla. (AP) — Five women who lived two weeks on the bottom of the sea have increased the odds that lipstick and powderpuffs one day will be standard equipment aboard American spaceships.

But space agency officials caution women's "lib" groups not to get their hopes too high, because it will be eight or nine years before a female flies in a U.S. spacecraft.

The National Aeronautics and Space Administration plans late in this decade to have space stations orbiting the earth with as many as 50 persons aboard.

That's when women will play a role. But they must be qualified in a medical or scientific field.

The question of women in space came up in Washington Monday when five female scientists and technicians received awards as the first woman team to live and work underwater.

Their undersea stay from July 6 to July 20 was part of a program called Teklite II in which 17 teams, 16 of them men, are taking turns at long submersion in warm water of Great Lamesha Bay in the Virgin Islands.

They lived in a dwelling submerged 50 feet and made frequent trips outside in diving gear to explore marine life.

Project manager for the female team was Richard Sprince of NASA.

Sprince said "we've got to start looking in that direction" when asked whether NASA

would consider bringing women into the astronaut program.

He said the women worked as efficiently as men on Teklite II.

A small group of American women have argued for distaff astronauts since the Russians sent the world's only spaceman, Valentina Tereshkova, into orbit for three days in 1963.

Many U.S. space observers note, however, that the space used then was totally automatic and say the Soviet Union probably sent Valentina up more for propaganda than technical gain.

Up to now, NASA's position has been that it's not that women can't learn to fly in space, but that space is still a pioneering venture for which man is more suited.

A woman, officials say, can always use her prerogative to change her mind and get married after NASA has invested several hundred thousand dollars and a lot of time in her training.

Dr. Charles A. Berry, chief astronaut physician, says it would be nice to have women along on extended flights such as two-year missions to Mars.

But, he cautions, "They've got to be able to do useful work and contribute to the mission, and you certainly can't have just one woman among a lot of men."

Church Notes

The Homemaker's Sunday School Class of the Ottaville Baptist Church met recently at the home of Mrs. Glenn Fisher. Mrs. Bob Rehmer gave the opening prayer and Mrs. Fisher gave the devotion.

Plans were made for an ice cream social to be held August 29 and Mrs. Stanley Gant brought the 'mystery' package which was guessed by Mrs. Bob Ruckman. Mrs. Ruckman led games and the hostess served refreshments.

Marriage Broker Tells All

NEW YORK (AP) — Some marriages may be made in heaven, but at least 15,000 of them have been made in the Bond Street Marriage Bureau of London, England.

That's the number of men Heather Jenner, who has run the agency during its 30 years of existence, has introduced to the women they eventually married.

"The pressure is off now for a girl to get married, and for the

One rather startling development, she reported, is that a large percentage of younger men have no objection to marrying an unwed mother. In general men are more tolerant, less class conscious today, while 30 years ago they might be more concerned with a girl's social standing than with her education.

"On the whole girls like men to have the same standard of education as they do, if not

laughter if a man tried to dictate. The strong silent Englishman who dominates the household is out of fashion."

Miss Jenner said she won't undertake spouse-hunting for a male seeking a mate 25 years younger. ("Girls wouldn't consider it.") She also refuses obvious fortune hunters, obvious neurotics, divorced people until they have their divorce papers and anyone for whom she feels she can't provide a reasonable number of introductions.

Prospective clients fill out a form, and are charged \$25 for registration and an additional \$50 if a marriage takes place. An interviewer talks to the client to learn how he is living, how he wants to live, his views on life, why he has never married or, if he is divorced, why the marriage broke up. It's this personal assessment, Miss Jenner feels, that spells success and precludes using a computer approach to matching.

Of those on the register 60 per cent are single, while the remainder are widowed or divorced. Men prefer an older girl to have been married before, she explained, since they find the older unmarried girl too eager.

Average age of the clients is 34 for men and 27 for women.

'Global Doom' Not Yet

Two years ago Cornell biologist Lamont C. Cole warned a meeting of the American Association for the Advancement of Science that mankind was in grave danger of running out of the very breath of life.

Soaring population, the steady removal of green spaces from the photosynthetic cycle, the continued burning of fossil fuels—coal, oil and gas—and pollution of the oceans, he said, were bringing us to the point where our consumption of oxygen would outrun the ability of nature to replenish it.

A recent article in Audubon, the magazine of the National Audubon Society is more specific in its pessimism.

We have already "hung a veil of dirty air over the earth that cuts off 20 per cent of the sunlight," write Robert and Leona Reinow. In another 10 years we will have shut off 50 per cent of the sun and "in 20 years we shall find ourselves in global doom," they claim.

One tiny ray of sunshine penetrates the gloom. A recently concluded study by two U.S. Department of Commerce scientists reports that there has been no discernible change in the world's oxygen supply in the last 60 years.

The project was commissioned in 1966 by the office of the President's Science Adviser with the aim of determining whether increasing concentrations of herbicides and pesticides in the oceans were killing off oceanic plant life, the primary source of atmospheric oxygen.

Collecting and testing samples of air on land and sea over three years between 50 degrees north and 60 degrees south

latitude, or from the area of Newfoundland to the tip of South America, the scientists came up with an average oxygen content in the atmosphere of between 20.9458 and 20.946 per cent.

Projecting their finding into the future, the scientists conclude that even if all the known recoverable reserves of fossil fuels were burned, the concentration of atmospheric oxygen would be about 20.8 per cent, or too small a reduction to have any effects on human breathing.

The study did not direct itself to other aspects of the pollution problem, however. It would be stupid to conclude that we may proceed recklessly to throw dust and haze into the air, pave over the green spaces and flush our wastes into the oceans in the belief that nature's capacity to replenish herself is limitless.

But at least we now have hard data showing we have not yet irrevocably doomed life and that rather than cry havoc, which only drives people into despair, we should continue our efforts to preserve as much of a bountiful earth as remains.

In golf parlance "making a hole in one" is quite an accomplishment, so Sam E. Ross, 320 South Beacon avenue, joins the select group after winging the ball to the cup on Number 7 at the Sedalia Country Club Sunday.

"This is the first time anything like that ever happened to me in 73 years," Sam exclaimed elatedly. He was playing in a foursome with Harold Dean, Herbert Mason and James Norlin.

Washington Merry-Go-Round

Gun Raffle Used to Defeat Senator

WASHINGTON — Some of America's most famous gun manufacturers apparently have violated the law in their campaign to unseat Sen. Joseph Tydings, D-Md., the champion of gun controls.

The firearms firms donated almost \$3,000 in prizes to a raffle whose advertised purpose was to "Help Defeat Senator Tydings." The Corrupt Practices Act bars corporate gifts "in connection with any (federal) election." The criminal penalties range up to a \$10,000 fine and two years in jail.

The anti-Tydings raffle was promoted by a gun lobby group called FAIR (Firearms and Individual Rights), which mailed out advertisements in violation of another federal law. A confidential ruling by the Post Office says the mailing "clearly violates the provisions of the postal lottery law. We are referring the matter to the Chief Postal Inspector for appropriate attention."

FAIR is based in North Hollywood, Calif., a long way from Tydings' home state of Maryland. The drawing was held at the Culver City, Calif., Gun Show, a two-day event which had the blessing of Gov. Ronald Reagan and Sen. George Murphy, both California Republicans.

The raffle tickets brought in \$876, which was then hustled across the country to Maryland to the "Citizens Against Tydings" organization.

—Gun Lobbyist's Confession—

FAIR director Frank Barnyak was bluntly honest

about the raffle. "The leaders of industry donated these raffle prizes," he said. Asked whether they knew it was for an anti-Tydings raffle, he said: "Sure. We sent them literature."

He reached some of the manufacturers through their California outlets and others at their national headquarters, he said. He mentioned Browning as one firm that "came in with both feet solid."

Browning, which gave a .22 rifle worth \$60 and joined a dealer in contributing a \$435 shotgun, denied any knowledge that the raffle proceeds would be used to defeat Tydings. H. G. Williams, the company's executive vice president, said from Ogden, Utah, that he was "upset" about the incident and that he understood the raffle money would be used to fight gun laws.

Weatherby, Inc., which donated a \$330 Mark V rifle, had a better understanding of the raffle's purpose. Roy Weatherby, the company's bluff president, said he thought Barnyak "may have mentioned" to him that the raffle was to defeat Tydings. Weatherby made no bones about his dislike for the Maryland Senator.

Frank Pachmayr, owner of the Pachmayr Gun Shops, gave a \$50 custom pistol case and some recoil pads. He conceded after much hedging that he knew the raffle was to fight members of Congress "who are trying to put bad laws through." One of them, he acknowledged was Tydings.

At least two listed donors, Winchester and Remington, denied making any donations — despite Barnyak's insistence that he received rifles from both companies for the raffle.

A life membership in the National Rifle Association was donated, according to Barnyak, by NRA clubs and not by the national headquarters.

It will be interesting to see whether the Justice Department will be as quick to act against corporations that made donations to oppose a Democrat as it has been to indict corporations that made contributions to help Democrats.

—Cutting Off Ears—

The FBI has learned from undercover sources that a black extremist group, which calls itself the True Black Family, requires recruits to bring in two white ears as the grisly price of membership.

The FBI has received a report that at least one victim, a 16-year-old white hitchhiker in Michigan, was slain by True Black Family believers. The body was found with no ears.

Footnote: There is speculation that the black extremists, because of their pro-Hanoi sympathies, are retaliating against the practice of a few GIs who have shorn the ears off Viet Cong corpses in Vietnam as ghastly souvenirs. The FBI's investigation, however, has uncovered no link between the ear collections in Vietnam and Michigan.

—Nixon Settles Feud—

President Nixon had to step in personally to settle a feud between the Treasury's Customs Bureau and Justice's Narcotics Bureau over which agency should chase down drug smugglers.

Sometimes the two agencies seemed to spend more time squabbling over narcotics than hunting for the smugglers. Meanwhile, the drug menace has grown alarmingly in the United States.

The President fired off a directive giving the Bureau of Narcotics and Dangerous Drugs, as it is known formally, the primary jurisdiction over narcotics.

"A difference of opinion has existed between the Justice and Treasury Departments as to the responsibility for dealing with the international traffic in narcotics," said the private directive.

"BNDD should be designated the agency to control the narcotics area. Customs should support BNDD's efforts to reduce and eliminate the flow of narcotics into the United States, and its intelligence network should be used to assist in the over-all effort."

The first federal income tax was 3 per cent and was imposed in 1862 to meet Civil War expenditures.

"I Know It Sounds Silly, but I Could Swear I Heard a Peep!"

Welfare, Urban Mess

By BRUCE BLOSSAT, Washington Correspondent

WASHINGTON (NEA)

Americans hate to be called immature—but they are. If you listen hard while you're in Europe, you'll realize it, even though it isn't easy to accept.

I can say this without giving away any free points to the British, the Germans, the French, the Italians or any of their smaller neighbors. After all it was they, not we, who stumbled into two catastrophic world wars despite their ages and ages of political and diplomatic experience.

But our once-secure physical isolation and our growing pains kept us apart from them until, twice, we saw our free friends going down and lunged over the ocean to save them.

The trouble with being young (and some of the wonder) is that it makes you, as a nation or an individual, terribly impatient. By the time we had fought World War II, we had elevated impatience to a high science. Now some of our young are very busy giving it a bad name.

So here we are, a generation later, one of the two military giants on earth and an economic colossus that scares (or angers) practically everybody. The marvel is that people like the Japanese in Asia and the Germans in Europe have the will to contest us in the world market, but they do.

We are so big in our influence that the Europeans can't help importing not only our goods but virtually everything else we have and do—including our student revolts.

But for all their feeling of engulfment, and it is most critical in the technological field, they have some things we haven't got, things that come from the wisdom of time.

There is more-reasoned, sophisticated debate to be heard in Europe than in most U.S. university complexes and in that enclave of the self-congratulatory intellectual elite, New York City.

I remember a conversation in a small Austrian town. Hardly any U.S. town of comparable size and remoteness is likely to nourish talk of equal sophistication. Most of our student shouts today sound like mewlings from the crib by comparison.

More recently, I heard moderately well-educated West Germans out-argue fairly experienced adult Americans by wide margins.

Even as they copy our affluence, fearing some of its effects all the while, the Europeans most often still outdo us in grace of living and somehow maintain a dogged stability rooted in the best of their history.

They cling to the forms of strong religion even if the substance has diminished—and look longingly, but especially toward us, for some new uplifting vision.

Because they adopted major social legislation 30 to 50 years earlier than we, they mostly have it working well (Germany's health insurance program is the world's best). They are building affluence on this base.

Returning to America, one can only gaze with heightened horror at the mess we seem to make of welfare, racial problems, urban areas (slums are few in Europe and town-planning far advanced). Europe's superhighways are far better marked than ours.

This is the era of the developing global economy, dominated right now by us. Our friends abroad recognize it and are getting in on it. If we can give them a bigger piece of the action, and of the technological moves that underlie it, we may get the whole world onto a better upward course.

Bigness like ours is always resented. Yet disappointment in us is a better word for this moment in history. The tough-fibered in Europe, with all respect to our talents and energies, don't see us as hard workers. I think they are right. We talk a big game. We paint a lot of placards. But we don't put out when it comes to real, grubby, unglamorous work that spells genuine advance and renewal.

We have used impatience as a noble alibi long enough. And we have gone too long letting our "informed" youth prance in the robes of idealism without getting down to cases. Europe, the whole world, waits for harder effort from Americans—and a new spirit dignifying to men who have lost so much in this century of conflict.

If Shakespeare had played bridge, we can imagine Richard III saying, "A deuce, a deuce, my kingdom for a deuce." Of course, if he were an ethical bridge player and held the East cards, he would not say it aloud but, according to Shakespeare and history, this particular king was not noted for ethics.

West opened the queen of hearts in response to his partner's bid and East played his lowest heart, which happened to be the seven-spot.

South could see no hope for his contract should he win that first heart. East would get on lead and the defense would cash one heart, two aces and the king of clubs.

He could also see a two-trick penalty if that queen of hearts were a singleton, but South didn't worry about that. He wanted to make his contract if he could and the only way to make his contract would be to duck the heart and get West to continue the suit.

South didn't spend all the time that we have been explaining his thoughts. He saw all this in an instant and dropped his six of hearts.

We will give West some credit. He thought carefully before playing a second heart. There was only one heart lower than the seven that he couldn't account for. That was the deuce. He thought that his partner might have been able to spare a higher card than the seven but maybe he couldn't. Anyway, West finally led a second heart, whereupon South drew trumps, discarded a club on his jack of hearts and scored the rubber.

If only East had held the deuce, he could have played it and West would have shifted and beaten the contract.

Problem: How To Waste Time

By BETTY CANARY

What with the work week getting shorter and with push-button living just around the corner, I foresee a real crisis in left-over time coming up.

There have been quite a few studies done on how to save time. One of the best I've seen was on using things for what they were intended. For instance, a woman can save precious hours by buying a bedspread and using it on the bed instead of cutting it up into curtains. She can also buy curtains and use them at the windows, instead of buying beach towels and turning them into curtains.

Unfortunately, here we are with lots of timesaving tips when the real problem of the future is going to be how to waste time — not save it. (Who asked that? Of course I don't think researching this article was a waste of time!)

Probably one of the best timewasting devices is sleeping. By really trying, everybody could add an hour or two to their daily eight. However, our puritanical past precludes this sort of timewasting. Also, some scientists have discovered that those who sleep a great deal are more prone to death by heart attack. If you die early, you're cheating by escaping, from this problem the rest of us are going to face!

One can waste a great deal of time just sitting around wondering how to spend the day off from work.

Much time can be wasted in spending hours at the dinner table telling your children how, when you were a child, you didn't have any time to waste.

However, the trend in timewasting is definitely toward acquiring a hobby. Experience shows us that anything called a hobby is something done for fun. And fun isn't work. And you don't get paid for doing something that's fun. (With a minimal effort you can spend all your pay on a hobby, thereby wasting money as well as time.) The thing to look for is something which looks energetic, seems worth-while and useful, and—this is essential—takes lots of time.

An ideal hobby would be finding fun through chopping logs. It wouldn't cost much if you moved into the middle of a nice stand of timber. You'd probably lose weight. And, you'd be storing up a nice supply of winter wood which would come in handy if you had a fireplace.

You could amaze your friends by painting your living room ceiling a la Sistine Chapel.

Or by building a cruiser in your basement and then flooding the basement.

A more practical solution would be to knit mid-length trim onto the bottoms of your miniskirts.

Or embroidering Countess Mara coronets on all your husband's \$5 ties.

THE WELL CHILD

Measles Immunization Is Recommended Step

By WAYNE G. BRANDSTADT, M.D.

Measles is a killer. Now that it is preventable, it is more nearly correct to say that measles, plus apathy, is a killer. Four years ago, thanks to the widespread use of the new measles vaccine, eradication of the disease seemed possible. But in the early weeks of 1970 a sharp increase in reported cases was observed.

Too many people have forgotten how serious measles can be with its crippling complications, such as pneumonia, corneal ulcers, middle-ear infections and most damaging of all, encephalitis or brain fever. It is estimated that eight million children now approaching school age are susceptible to measles because they have not been immunized.

The best time to have your child vaccinated against measles is on his first birthday. But no child should be allowed to start his school life without this protection, because contact with a large number of other children is the surest way to get the disease.

Q — Is it true that cats carry disease? Which would be better for a child—a cat or a dog?

A — All pets are potential carriers of disease. The best pet for a child is one that appeals to him and that he can be taught to take care of. If you are worried about it being a source of disease, have a veterinarian examine the pet and give it appropriate inoculations.

Q — My son had convulsions for three days after he was born. The doctor said they were caused by a calcium deficiency and gave him calcium in his veins, which cured him. What is the name of this disease? Is it likely that my next baby will have it?

A — This sounds like tetany (not tetanus), but it is unusual for it to be present at birth. It is not likely to occur in any of your future babies.

BERRY'S WORLD

Looking Backward

Ninety-three Years Ago

Sedalia is blessed with mocking birds that make the night melodious. But when that donkey in the west part of town begins to sing, even the moon whirls around in agony. Still the donkey sings... A musical soiree to aid the Rectory building about to be put up on the lots owned by the Episcopal church, will be held at the residence of Mrs. C. A. Marvin, corner 7th street and Massachusetts avenue, July 18.

—O—

Forty Years Ago

Cline B. Finnell of St. Louis, was elected secretary-manager of the Sedalia Chamber of Commerce at a special meeting of the board of directors at Hotel Bothwell. He succeeds the late Paul M. Ingram.

—O—

Twenty-five Years Ago

Leaders in the tin can salvage collection were pleased with the cooperation shown by Sedalians in the Sunday afternoon city-wide collection. Many trucks were donated for the campaign, and at the close of the afternoon the total salvage pile amounted to three tons. L. W. Richardson was in charge of the campaign.

Thought for Today

We looked for peace, but no good came, for a time of healing, but behold, terror. — Jeremiah 3:15.

If we pulled together as much to put over a siege of peace as we do a spind of war, we would be sitting pretty. Peace is kind like prosperity: There is mighty few nations that can stand it. — Will Rogers.

POLLY'S POINTERS
Dry Cleaners Are Best
Bet to Remove Ink Spots

By POLLY CRAMER

DEAR POLLY—L. C. could use hair spray to remove printer's or ballpoint ink. Rub, then wash with soap and water and the stain should disappear.—MRS. A. E.

DEAR POLLY—L. C. wanted to remove printer's ink spots. The stain-removing guide that came with my automatic washer says first to test in lukewarm water to see if the ink is water soluble. Soak out the stain and then launder. If not water soluble, sponge with a safe dry-cleaning fluid.

Life is too short to take a chance on blowing yourself up doing your own dry cleaning at home. I think it is cheaper and safer in the long run to take everything to the dry cleaners. They can do most anything nowadays.—MARY H.

DEAR GIRLS—Sometimes it is well to put thick paper towels under a stubborn ink stain, apply mineral oil to the spot and then go over it with a nonflammable dry-cleaning fluid and the oil will help flush out the ink.—POLLY

DEAR POLLY—After seeing a store-bought cleaning gadget made from a shaggy material and housing a yardstick, I made my own. In just a few minutes, I tore a length from a discarded shag rug, folded it lengthwise and stitched it across one end and up the side. A loop at the top is handy for hanging this on the wall. The yardstick is not only protected from breakage but I can use it, cover and all, for reaching hard-to-get-at places for dusting as well as washing. When I wash my car, it reaches across the top nicely.—MRS. C. V. T.

Polly's Problem

DEAR POLLY—The girls who send in Pointers are so clever. I do hope some of them will suggest a way for making the back of an organ presentable when it is placed at a right angle to a wall. Also, how can one put to use a 25-year-old envelope-style alligator purse?—CAROLYN

(Newspaper Enterprise Assn.)

Cards Break Losing Skid Against Cincy

CINCINNATI (AP) — St. Louis Cardinals pitcher Chuck Taylor finally was scored upon by the Cincinnati Reds Monday, but it was not enough.

The Cardinals had not allowed a run for 23 innings until the Reds scored three runs off him in the ninth inning. However, the Cards had 16 runs, and the Reds only had 9.

"I got a little tired in the ninth inning," said Taylor. "I thought I made a good pitch to Carbo, a low slider and he hit it out. The heat didn't bother me. I was trying to keep the ball away from those big guys because if you make a mistake against any of them they hit the ball out on you."

Taylor might have become a little tired, but it didn't matter because he had the batting support of Mike Shannon, who knocked in four runs with a double and a single, and Richie Allen, who drove in three runs with two homers.

Allen said he thought the Cards figured to bust out of their eight game losing streak.

"I figured we were due to win one," he said. "We're in one of those runs that all teams get in once in a while. I hope this is what it takes to get us started."

Although he did have a good night at the plate, Allen had some unkind words for the Reds' new stadium.

"I'm not complaining," he said, "but this stadium is built for football, not baseball. There's no ventilation on it. But we have to play on it like everybody else."

St. Louis manager Red Schoendienst said he was pleased with his team's victory and hopes it could break their slump.

"I was tickled to death that we scored a lot of runs," he said. "I don't care how many runs we score. Taylor is a fine pitcher. He had excellent control."

The Reds blasted two home runs, a two run shot by Johnny Bench in the second inning, his 34th, and a three run shot by Bernie Carbo in the ninth, his 16th. It was not enough, though

as the Cards scored in seven of the nine innings, blasting five Cincinnati pitchers for 19 hits.

Reds manager Sparky Anderson said, "When we lose we really lose. Merritt simply didn't have anything but I'm not worried. We have too good a ball club."

Losing pitcher Merritt said, "I was just plain lousy. You just have to forget. There'll be lots of other games."

Garrett Sparks Chiefs' Offense During Monday's Grid Workouts

By KEN RAPPORT
Associated Press Sports Writer

Kansas City's Super Chiefs are running on time ... and getting a big kick out of their little caboose.

Diminutive Mike Garrett plowed over one of the touchdowns as the first string offense scored three times against the rookies in a scrimmage capping the veterans' third workout Monday.

The defending National Football League champions, back in uniform only since Saturday, were preparing hastily for Friday night's charity game against the College All-Stars in Chicago.

Garrett's three-yard dive topped the veterans' first touchdown run. The second score came on a 30-yard end-around play by Goldie Sellers and the final marker by Otis Taylor, also on an end sprint.

Coach Hank Stram said he would put his Chiefs through two more sessions today.

Elsewhere in football, the 39 rookie prospects of the San Francisco 49ers wound up Monday's practice with a 20-minute scrimmage. Buster O'Brien threw a scoring pass to Tim Harr for the only score.

The Dallas Cowboys reduced the rookie squad to 40 by releasing five free agents—Chuck Blackburn, linebacker from Kentucky; Robert Brown, wide receiver from Arkansas AM&N; James Dunn, corner back from Kentucky State; Bruce Kemp, running back from Georgia; and Bill Van Leeuwen, linebacker from San Diego State.

The Los Angeles Rams dropped two rookies from their training camp—place-kicker Ingmar Kauffeldt of Sweden, a graduate of Riverside City College, and center Bobby Webb of Southern Mississippi.

The 23 rookies in the Green Bay Packers camp held a morning workout, then had a meeting and a four-mile run over a

snowmobile course in the afternoon.

The New Orleans Saints ran through a light workout in the morning and limited work the rest of the day to meetings with the coaches.

While the rookies were training in Johnson City, Tenn., site of the Atlanta Falcons' camp, several veterans got together on their own at a school in Atlanta.

Central States Crown Up For Grabs Tonight

Jolting Natureboy Kirby will challenge for the Central States wrestling crown when he steps through the ropes of the Convention Hall ring tonight.

The 235-pound Indianapolis slugger will match his power measures against the skill and cunning of Danny Little Bear, a local favorite and biggest single winner on the Midlands wrestling circuit this year.

Little Bear is well aware of the solid threat which Kirby poses. It was Kirby who handed the tough Oklahoma Indian his only setback in title action some weeks back. Little Bear regained the crown a week later, but has avoided Kirby in the interim.

Kirby has little regard for the

fineries of wrestling, preferring to go with his power and roughing style. It is an effective offense, but one that makes him vulnerable when he fails to connect.

Team tag action also is on tonight's bill, with veterans Pat O'Connor and Bob Geigel siding against Handsome Harley Race and crafty Oki Shikina. O'Connor, a former world champ, has intensified his wrestling schedule of late and is back in the peak of condition. Geigel is noted for his brawling style and his ability to get the jump on opponents.

In separate matches, Scandor Akbar will take on the Viking, and O'Connor will face Shikina. Starting time is 8:30 p.m.

In Santa Rosa, Calif., Oakland Coach John Madden said he felt the current strike-lockout situation in football might cause changes in future pre-season training camp schedules.

The Raiders have 27 rookies in camp, waiting for the veterans to arrive, and Madden said Monday: "I can see some of these kids changing, improving a lot over what I had anticipated."

"It's entirely possible that in past seasons some of the rookies never did get to a point where it made much sense to them. And they were gone before it did."

Aussies Draw Top Seedings In Tournament

LOUISVILLE, Ky. (AP) — Four Australians, including two-time Wimbledon singles champion John Newcombe, are top-seeded in the first annual Louisville Tennis Classic set to get underway here today.

Newcombe, who won the Wimbledon title in 1967, is No. 1 seed in the field of 16. He is followed by Rod Laver, Ken Rosewall and Tony Roche.

Laver stacks up as Newcombe's stiffest opposition, according to the seedings, and previous matches between the two bear this out. In four meetings last year, Newcombe managed to beat the left-handed Laver only once and also was on the losing end of their only match this year.

Actually the stars of the tournament, except for Rosewall, won't see action until Wednesday when singles matches get underway.

Rosewall and Fred Stolle will open the tournament today when they go against Cliff Drysdale and Pierre Barthes in a doubles match.

Pinch Hit Wins Game For Sedalia

Young Harry Browder was the hero of the opening round of the Sedalia Little League District One Tournament at Liberty Park Monday night.

Coach Bernard Herndon of the Sedalia American League All-Stars sent Browder to the plate in the bottom of the sixth inning Monday night as a pinch hitter against La-Co-Mo., with one out and a runner on second.

Browder promptly lined a shot into left-center field scoring Dwayne Stratman from second, giving the locals a 4-3 win over La-Co-Mo in the first game of the single-elimination tournament.

Other scores from Monday night's activity found Lawson Topping Clinton, 10-4 and Carroll County trimming Kearney, 7-5.

Pat Fiene was the winning pitcher in the Sedalia contest, Randall Lovercamp took the loss.

Mark Hart tossed Carroll County past Kearney; Craig McCracken was tagged with the loss.

In the Clinton-Lawson game, Doug Hise was the winning pitcher, Tony Lee was the loser.

Action Tuesday night at the Little League field in Liberty Park finds the Sedalia National League All-Stars squaring off against Whiteman Air Force Base at 4 p.m.; at 6 p.m. Sedalia American tangles with Northwest Missouri-South, while Harrison County meets Carroll County in the night's finale at 8 p.m.

The tournament will last through Friday, when the championship game is scheduled at 7 p.m.

Two Women Share Trans-Miss Lead

ROCKVILLE, Md. (AP) — Mrs. William B. Mahan, a wee Texan from Corpus Christi, and Mary Dwyer of Geneva, N.Y., loomed as top challengers to defending champion Jane Bastanchury as match play got underway today in the 40th Women's Trans-Mississippi golf tourney.

Mrs. Mahan, a mere 100-pounder, and Miss Dwyer, former A.S.G.A. junior titlist, each fashioned 36-37—73s for par to share Monday's qualifying medal.

Miss Bastanchury, trying for a third title, came in one stroke back at 74. Only 13 of the 143 players broke 80 on the tough Manor Country Club course, with the top 64 entering today's play.

Winning Hit

Harry Browder of the Sedalia American Little League All-Star team cracks a single to left-center (top) in the bottom of the sixth inning in Monday night's opening game of the District One Little League Tournament at Liberty Park. The hit scored Dwayne

Stratmen (bottom) and gave the locals a 4-3 decision over La-Co-Mo. The Sedalia American stars were scheduled to meet Northwest Missouri-South at Liberty Park Tuesday night at 6 p.m. (Democrat-Capital Photos by Vaughn Hart)

Winning Run

Golf is His Game

NEW YORK (AP) — When Tom Valentine entered college a couple of years ago he had to decide whether he wanted to be another Joe Namath or another Arnold Palmer.

"Football is a passion with me, but I chose golf," the 20-year-old Georgia University athlete said today while waiting to be honored as one of golf's eight 1970 All-Americans.

Tom, 5-11 and 175 pounds, was an all-state football quarterback at Gainesville (Ga.) high school and was good enough to captain the basketball team. When he got ready to go to college, there were all sorts of scholarship offers waiting for him.

Young Valentine made a quick decision—he was going to follow the sun on the professional golf tour.

This is a choice that more and more of the country's top athletes are making as the tour grows in wealth and glamour.

"It's awfully tempting when you see a man putting for \$50,000 as someone will be doing this week in the Westchester Classic," Tom said. "But there are so many other advantages to golf. Even if you don't turn pro, you can get a lot of pleasure out of the game and make it a business asset."

Valentine's sentiments are shared by the seven other members of the All-American Collegiate Golf Team, to be honored tonight at a dinner at which Vice President Spiro Agnew is special guest.

They include Bruce Ashworth of Las Vegas, Nev., and John Mahaffey of Kerrville, Tex., University of Houston; Bob Clark of Santa Ana, Calif., California State College at Los Angeles; Mark Hayes of Norman, Okla., University of Oklahoma; Canadian Wayne McDonald, Indiana; Howard Twitty of Phoenix, Ariz., Arizona State, and Lanny Wadkins, Jr., of Richmond, Va., Wake Forest.

"I was pointed to a football career from the time I was in grammar school," Valentine, son of a Gainesville doctor, said. "When I was in the fourth grade, they started giving us college plays. By the time I was in high school, we were using pro spreads and formations. Football is a religion in our area."

"I think football is great, but golf today offers so many more opportunities. Football is so demanding. Golf is fun."

Set Purse At \$20,000 For Races

(Democrat-Capital Service)

KNOXVILLE, Ia. — Entries are starting to arrive for the Tenth Annual National Supermodified auto races at the Marion County fairgrounds here Aug. 13-15.

The program is worth more than \$20,000 and entries from throughout the nation are expected.

Bobby Jones of Danville, Ill., entered a Chevy-powered supermodified, 1967 National Supermodified champion, Thad Doshier of Topeka, Kan., also entered and Ron Perkins of White River, Ill., will be making his first appearance in the nationals this August.

Track director Marion Robinson said that more than 90 drivers from coast-to-coast are expected. Robinson stated that the \$20,000 plus purse is the largest ever. More than \$12,000 will be awarded in the 30-lap championship feature alone.

\$3,000 plus lap money goes to the winner in the feature national championship race. Drivers qualify for the feature by time trial qualification runs. Twenty two cars will start the feature.

Tickets for the annual classic are moving briskly with sales recorded in 31 states. However, plenty of good seats are still on sale.

No Excuse If We Lose Says Stram

LIBERTY, Mo. (AP) Coach Hank Stram emphasized today that the Kansas City Chiefs will have no alibies if they lose to the College All-Stars in Chicago Friday night.

In other words, if they lose—and Stram doesn't think for a second the Chiefs will lose—the fact that Kansas City had only six days to prepare for the game won't be an excuse.

"We're never going to insult ourselves with a reason to fail," Stram said. "We want to win the game."

"This is the same approach we take for all our pre-season games. We want to win, look at a lot of people and improve artistically."

The Chiefs' veterans started workouts last Saturday after a lengthy delay because of a con-

tract dispute stalemate involving the National Football League Players Association and the 26 club owners. Kansas City got permission to practice and play the All-Stars and then disband if the dispute continues.

Stram stepped up the practice tempo Monday when the Chiefs romped through three drills. It was the first time in the Chiefs' history they worked out three times in one day. Two practices were scheduled today.

One of the bright notes of the practice sessions so far has been the running of deceptive Mike Garrett, a running back who is pondering pursuit of a major league baseball career after this pro football season, his fifth.

Garrett has been turning in sparkling runs from Stram's vaunted I-formation. The former Southern California ace, who has weighed as much as 200 pounds in previous seasons, now weighs only 181 and said he lost weight to bolster his quickness.

Garrett was the club's No. 1 ground gainer and pass receiver in 1969. He rushed for 732 yards and hauled in 43 passes for another 432 yards.

This college community of 9,000, located 20 miles northeast of Kansas City, looks like a boom town with the world champion Chiefs around.

Traffic was clogged up on most of the narrow streets leading to William Jewell College both Sunday and Monday. There was no available parking space, and the practice field was ringed by 2,000 or 3,000 spectators much of the time.

Chiefs Coach Hank Stram

Baseball Heads Open Meetings

MONTREAL (AP) — Major league baseball owners opened their annual summer meeting today and were believed ready to make "traded for a future draft choice" part of their language.

Among one of the proposals expected to be made at the two-day meeting—first ever held by the majors in Canada—was granting teams the right to trade future college draft picks, similar to football and basketball.

Although the baseball draft is not nearly as sprinkled with

publicized college stars as the other two sports, allowing the use of draft picks for trade bait probably would encourage more trading.

Few of the other items on the agenda can be termed exciting or of great interest to the fans, and none of them can compare in importance to the one item not listed but certain to be discussed—the Curt Flood court case.

Although no action is expected to be taken by the owners, they will talk about it, even if only informally.

On the agenda is an updated report by the planning committee on the proposed reorganization of the administrative offices of baseball—a plan to put the offices of the commissioner and the American and National leagues and the minor leagues under one roof in New York.

Commissioner Bowie Kuhn already has come out in favor of the plan, and the minor leagues passed a resolution back in 1963 favoring it. It was presented at the major league winter meetings, but it wasn't certain that any action would be taken here.

The National League office presently is in San Francisco, the American in Boston.

Discussion also will be held on appropriation proposals to Canadian amateur baseball and summer leagues in the United States, adjusting the rules involving the replacing of players called to temporary military duty and injured players, promotion of baseball and umpire development.

A proposal also is expected to schedule exhibition games, starting in 1971, with the three major service academies and the National Collegiate Athletic Association champion each year, and, on the lighter side, changing the color of the foul lines and the bases from the traditional white.

American Loop Defeats N.L. For Top Honor

The Sedalia American League 12-year-olds won a 23-2 pounding over the Sedalia National League 12-year-olds Saturday night to cop first place in the first annual Sedalia Little League Invitational Tournament.

Sedalia American made it to the final contest by defeating Whiteman Air Force Base Friday, 10-7.

In that game Kevin Collins was the winning pitcher. Sedalia National topped La-Co-Mo in the other opening game, 6-4 behind Mike Bernard to gain the championship berth.

Bob Trutman, the winning pitcher for the American League in the championship game, struck out 12 batters and aided his own cause with a home run.

Randy Harvey was the losing pitcher in the game.

La-Co-Mo downed Whiteman in the consolation game, 17-3.

Co-captains Are Named For Friday

CHICAGO (AP) — The College All-Stars will not be lacking in leadership when they take on the Kansas City Chiefs Friday night in the midsummer football classic in Soldier Field.

Massive Mike McCoy of Notre Dame will captain the defensive unit and running back Bob Anderson will lead the offense.

The two were selected by their teammates whose decision was applauded by Coach Otto Graham by saying, "I can't think of two men more deserving of the honor."

McCoy, who will toil for Green Bay if and when the players and owners in the National Football League settle their contract differences, has already knocked two of his teammates from the big game.

McCoy fell on running back Larry Stegent of Texas A&M in a tackling drill and bumped defensive lineman Phil Olson of Utah State in a monkey roll drill. Both suffered knee injuries and will miss the All-Star show.

Notre Dame Coach Ara Parseghian called McCoy "the greatest defensive tackle I've coached and the hardest working big man I've ever coached." The 6-foot-5, 285-pounder from Erie, Pa., is surprisingly quick despite his ponderous proportions.

Anderson was a quarterback at Colorado in 1968 and played that position for the first two games of the 1969 season before switching to running back.

He totaled 22 touchdowns last season and became the first Big Eight back in history to pass the 5,000-yard mark in career total offense with 5,017 yards.

Gets Safely into Third

Yankee Danny Cater is safe at third base after a collision with California's Ken McMullen in the fourth inning at Angel Stadium, Monday night. Umpire Jim

Honochick calls the play. No one was hurt in the incident. (UPI)

Tom Seaver Hurls NY Mets Past Visiting San Francisco

By DICK COUCH

Associated Press Sports Writer Tom Seaver beat the New York heat by turning it on San Francisco, but Jim Merritt wilted in Cincinnati's new hot house when St. Louis finally turned on the steam.

Seaver, flayed for three early runs in muggy Shea Stadium, held the Giants to one hit over the final seven innings and beat them 5-3 Monday night for his 15th victory of the season.

Merritt, the only other 15-game winner in the majors, surrendered six runs and eight hits in the 3-1-3 innings he lasted at

equally-muggy Riverfront Stadium in Cincinnati as the Cardinals broke an eight-game losing streak by roasting the Reds 16-9.

Philadelphia bombed Los Angeles 10-3 in the only other National League game while, in American League play, Minnesota trimmed Baltimore 5-2 and the New York Yankees downed California 5-2 in 10 innings.

Seaver fell behind 3-0 before Joe Foy's two-run homer in the second inning and a solo blast by Cleon Jones in the fourth pulled the Mets even. Then, he scored the go-ahead run on Ken

Singlestown's fifth inning single off 14-game winner Gaylord Perry and throttled San Francisco the rest of the way.

"I pitched well with what I had," said the Met ace, who finished with a six-hitter and struck out six. "It was a tough night, muggy and hot, and I really had to struggle."

"I was just plain lousy," muttered Merritt after his fourth-inning knockout at the hot hands of the previously ice-cold Cards.

Richie Allen blasted his 28th and 29th homers, driving in three runs; Mike Shannon delivered four more with a bases-loaded double and a single, and

Vic Davalillo lashed three doubles, good for two RBIs, as the Cardinals erupted for 19 hits—their high for the season.

St. Louis shrugged off a five-run Cincinnati burst—capped by Johnny Bench's 34th homer—in the second inning on the way to only its third victory in 20 games. Reliever Chuck Taylor blanked the Reds from the third inning until the ninth, when Bernie Carbo hit a three-run homer, to earn the victory.

Tony Taylor, Deron Johnson and Larry Hise clubbed homers and Byron Browne knocked in three runs with a double and single, leading the resurgent Phillies past Los Angeles for their 10th victory in 12 starts.

The Twins earned a split of their four-game summit series with Baltimore and increased their AL West division lead over California to six lengths as rookie Bert Blyleven picked up his fifth victory with help from bullpen standby Ron Perranoski.

Jim Holt and George Mitterwald homered for the Twins and Perranoski, making his 42nd appearance of year, picked up his 25th save by tossing three scoreless innings.

Mel Stottlemyre hurled a five-hitter for the Yankees, who ended a four-game losing string by scoring three 10th inning runs on Thurman Munson's single, four consecutive walks and a ground out.

Track Sales Brisk

NEW YORK (AP) — "We are well along toward our second million, and we're shooting for three," says Dave Lockton, president of the new \$25.5 million Ontario (Calif.) Motor Speedway.

He was referring to advance ticket sales for the California 500 championship race Sept. 6, first major event for the 2.5-mile facility 40 miles from Los Angeles.

The 34-year-old Lockton, an Indianapolis lawyer before moving into auto racing, said reserved seat sales already have cleared one important milestone in sports and are likely to overtake others.

"Our sales as early as May 25 had exceeded \$1,240,000. That figure alone was substantially higher than the gate of \$1,214,955 for the 1970 Super Bowl in New Orleans, a record for pro football."

"This is an interesting comparison. It gives all sports fans a reference point. Now they can easily see just how popular the sport of auto racing has become."

Ontario's ticket prices range from \$8 to \$25, with some box seats going much higher. Lockton said sales by mid-June had reached the \$1,750,000 mark and represented roughly 70,000 seats—or half of the 140,000 seating capacity.

The gross gate for Ontario's first event could easily exceed \$3.5 million, including admissions for two weeks of practice and a week-end of qualifying Aug. 29-30.

Even then, the gross probably wouldn't match that of the 54-year-old Indianapolis 500, where an estimated half a million people pass through the gates for almost three weeks of practice, two weekends of qualifying and the race itself.

Indy President Tony Hulman never announces his Memorial Day gate, but insiders say it probably would total \$5 million for an average year. The purse this year exceeded \$1 million. Ontario's payoff already has climbed to nearly \$700,000.

Retired Captain Named Director

NEW ORLEANS (AP) — Retired Navy Capt. Joseph T. Katz, 48, has been named executive director of the Sugar Bowl.

The hiring of Katz, announced Monday, was a break from the volunteer status of the job. The Sugar Bowl has been operated by volunteers since its first general manager, Fred J. Digby, died in 1958.

Katz from 1969-70 handled public relations and special projects for the deputy chief of Naval operations.

A.B. Nicholas Jr., president of the New Orleans Mid-Winter Sports Association, said the growth of the Sugar Bowl "has put increasing burdens on its officers and members who have carried on the work entirely on a volunteer basis."

Sawing For Record

With the American record out of the way, Steve Cooper, left, and Gary Turpen, 17, continue their non-stop seasawing in an effort to break the world mark of 91 hours set last year in Australia. They surpassed the

U.S. record of more than 50 hours Sunday. The special seasaw allows one to sleep while the other pulls a rope to keep the constant up and down motion going. (UPI)

Agrees To Submit Nominees to ABA

WASHINGTON (AP) — The Nixon administration has reversed its policy and agreed to submit the names of potential Supreme Court nominees to the American Bar Association for an investigation of their qualifications.

The new system, proposed by top ABA officials and approved by Atty. Gen. John N. Mitchell, gives the organized bar a chance to advise the administration against naming a man found unfit professionally for the high bench.

However, Lawrence E. Walsh, chairman of the ABA's standing committee on the federal judiciary and a vigorous proponent of the change, said this would not give the association "a veto power."

Outlining the plan at a news conference Monday at the Justice Department, Walsh said Mitchell would not be bound by the ABA investigation in making a final recommendation to President Nixon.

Still, the ABA's role in picking people for the high court ob-

viously will be larger. Said Walsh of Mitchell: "He doesn't want to be told someone is good if he is, in fact, not."

The administration has not consulted the ABA before making its nominations for the high court, though it has sought ABA assistance on other federal judgeships.

Two of its four Supreme Court nominations, Chief Justice Warren E. Burger and Associate Justice Harry A. Blackmun, won easy Senate confirmation. But the two others, Judge Clement F. Haynsworth Jr. and G. Harrold Carswell, were rejected.

of the people under consideration.

"I don't think you can preserve confidentiality," Walsh said. The public should be aware of who is being considered for the high court, the former deputy attorney general said, and "public speculation" about a potential candidate's qualifications is welcomed.

Walsh was asked if the Haynsworth and Carswell defeats prompted the administration to agree to an advance screening system. "Defeat of the nominations was less persuasive than the merits of the argument," he replied.

All four men were endorsed by the ABA, which learned of the nominations at the same time the public did.

The new system, Walsh said, will permit a restricted preliminary investigation with "maximized candor." He said lawyers and judges would be more likely to speak frankly to ABA investigators about a potential nominee's weaknesses.

Once a man had been named publicly, Walsh said, people who had professional reservations "had no choice but a confrontation with the Attorney General or an acquiescence in his selection."

Should the preliminary investigation result in an unfavorable rating, the attorney general could drop the potential candidate or he could ask the ABA to deepen its investigation.

A formal, expanded report to Mitchell from the ABA would result. In the process, Walsh said, the candidate—or candidates—would be interviewed by ABA evaluators and the public would inevitably become aware

Butter Is Forsaken For Cheese, Desserts

WASHINGTON (AP) — Less of the nation's milk is being used for butter but more is going into the manufacture of cheese and frozen desserts such as ice cream and sherbets, says the Agriculture Department.

In all, says a new report, half of the 116.2 billion pounds of milk produced by dairy farmers last year was used for manufactured products, or about two per cent less than in 1968.

Butter accounted for 23.7 billion pounds of whole milk, five per cent less than in 1968 and the second smallest amount since 1946. The creamery butter production of 1.12 billion pounds was one of the smallest in half a century.

Minnesota maintained its top ranking as the leading butter producer for the 23rd consecutive year, followed by Wisconsin, Iowa, California and New York. The five accounted for 65 per cent of U.S. butter output last year.

Will Test Poseidon In Spite of Russians

CAPE KENNEDY, Fla. (AP) — Its first try at a submerged launching of the Poseidon missile foiled by an inquisitive Soviet trawler, the U.S. Navy plans to carry out the test next week even if snoopers onlookers appear again.

The milestone shot of the multi-tower Poseidon had been scheduled Monday from the nuclear submarine James Madison.

But it was postponed because a Soviet fishing vessel with electronic gear probed to within 200 yards of the sub during a trial run last Friday, according to a reliable informant.

The Navy announced Saturday the firing had been "deferred" and that "additional preflight tests will be conducted and the test rescheduled, probably next month."

The informant, who was aboard a nearby surface support ship, said, "It came close, to within 200 yards. Someone in the Pentagon became a little apprehensive."

He said there was nothing wrong with the missile or support equipment.

Defense Department officials declined to confirm or deny the report.

The Russian ship was well outside territorial limits, and such trawlers are a common sight off Cape Kennedy whenever an important missile or manned space shot is conducted.

The trawlers have shadowed Polaris nuclear subs in the past, but never came as close as last Friday, sources said.

It was speculated the trawler was testing sonar equipment on the submerged Madison and gathering information on the nature of the exhaust from the sub's nuclear power plant. Such data could help in developing detection systems.

The Poseidon launch is to be the first from a submarine for this advanced weapon which is to replace the Polaris rocket starting early next year.

The Madison is the first of 31 Polaris subs refitted for the Poseidon, which packs a re-entry vehicle (MIRV) capable of delivering up to 10 nuclear warheads on separate targets.

New Posture Queen

ATLANTA, Ga. (AP) — A Georgia girl has been named Miss World Queen of Posture and Physical Fitness, beating out representatives from 19 other states and Puerto Rico.

Susan Diane Perry, 19, a 5-foot-9, 130-pound brunette from Atlanta, won the 18th annual pageant Saturday night.

Chalmers Under Fire At Kansas University

TOPEKA, Kan. (AP) — "If things aren't kept under control" at the University of Kansas, Henry A. Bubb, a member of the Board of Regents, says he will resurrect his motion to fire Chancellor E. Laurence Chalmers.

"I'm very fond of the chancellor," said Bubb Monday, "but I don't think he's a strong enough administrator. It's not so much what he has done but what he hasn't done."

Bubb made the comments after disclosing he introduced a motion to fire Chalmers at a special meeting of the Regents Sunday.

Meanwhile, a Kansas spokesman for the National Association for the Advancement of Colored People cautioned that the firing or resignation of Chalmers could lead "to the final disintegration of the situation in Lawrence."

The main university campus is in Lawrence, Kan.

Dr. Charles R. Roquemore, state president of the NAACP, said "It is unfortunate that politics is entering into the situation at Lawrence and at KU to the extent that it is."

He said Chalmers had a good understanding of the situation and the plight of black people in general and that his removal would have an adverse effect.

Roquemore said there is continuous tension in Lawrence and "a complete mistrust by many blacks and whites of the local law enforcement agencies in Douglas County." This is one of the main reasons the Justice Department should come in.

He said Negroes in Lawrence were not arming themselves to fight whites.

"They are much more concerned with defending themselves than going out and getting white people," he said.

"I think the University of Kansas will become another Berkeley if we don't get a real strong administrator," said Bubb, chairman of the board of Capitol Federal Savings and Loan Association and senior member of the board of regents.

"We've got to see to it that the student who wants a good education won't be harassed and disturbed."

The 63-year-old Bubb, a 1928

alumnus of KU, said he believes Gov. Robert Docking agrees in what should be done at the university although "we haven't sat down and talked about it."

Bubb is on a three-man subcommittee that will go to Lawrence to investigate allocation of student fees and hiring practices in administrative positions.

"We're not just going to be looking at the blacks they hired this summer, either," said Bubb, referring to Gary D. Jackson, a dean's assistant, who was fired by Chalmers at the regents' directive.

It was learned last week that Jackson signed for a purchase of 27 boxes of ammunition in Topeka July 17 and brought it back to Lawrence.

NOTICE OF PUBLIC HEARING ON REZONING APPLICATION

Whereas, The City Planning and Zoning Commission and the City Council of Sedalia, Missouri, have received application from Lot 1, Holman, owner of the following described property:

Lots 1 and 2 in Block 2 of Sub-Division in Blocks 1, 2, 3, 4, 5 and 7 in Arlington Heights Addition to the City of Sedalia, Missouri (2118 and 2120 of East Broadway Boulevard) requesting said real estate be changed and rezoned from Zone R-1 to Zone C-3, and that said application be acted upon as provided in Ordinance No. 6741. Therefore, in compliance with Chapter 89 of the Revised Statutes of Missouri, 1969, other applicable statutes, and said zoning Ordinance No. 6741, and said City Planning and Zoning Commission will meet in the Council Chambers, City Hall Building, Sedalia, Missouri at 7:30 p.m. on Thursday, July 30, 1970, for the purpose of a Public Hearing in relation to said application to change the zone and rezoning said real estate, at which time and place, parties in interest and citizens shall have an opportunity to be heard.

Dated at Sedalia, Missouri, this 13th day of July, 1970.

No Time Like Present To Clean Away Worries

NEW YORK (AP) — Now is a good time to clean out your worry closet.

The summer doldrums are hard enough to get through without cluttering up your life with nagging vexations and old anxieties that profit neither your mind nor heart.

Just as you periodically throw away outworn or out-of-date clothing, so you should systematically rid yourself of problems that choke the free expression of your spirit. Some of these leftover worries probably weren't really worth fretting about in the first place.

Here, for example, are some hackneyed worries we've decided to throw out with the rest of the garbage:

Will the penny post card make a comeback?

After women are finally liberated from men, what will they want to be liberated from next?

What will be the dominant color in men's neckties this Christmas?

What good will it do to give the vote to 18-year-olds, if they can't find anything in society worth voting for anyway?

When will someone invent a good new clean fun for people

The Classified Section Is Always "BUZZIN' WITH BARGAINS"!

YOU'RE AS WELCOME AS SPRING IN SEDALIA - A GOOD PLACE TO LIVE

We want to welcome you, our new neighbors and friends, to Sedalia "the friendly city". Sedalia offers excellent shopping opportunities. You can find nearly every type of merchandise and service here. Recreational facilities are available throughout the city. We have good school systems, both public and parochial as well as Pettis-Benton County State Fair Community College for higher education. Almost every religious faith is represented in Sedalia. Bothwell Hospital provides good medical care and we are especially proud of The Children's Therapy Center which has helped many youngsters to a fuller, richer life.

Located in Central Missouri, Sedalians have easy access to major sporting events, cultural opportunities and vacation spots located throughout the state.
